

DragKing™ Infield Drag

10001665

Benefits

Easy to Use

Just attach it to your standard lawn or garden tractor and you are ready to start grooming your infield.

Versatile

Want more weight? The rails are designed to securely hold cement blocks for added weight.

Built to Last

Proudly Made in the USA using all welded steel construction and high-quality components to deliver years of trouble-free service.

Overview

The **DragKing™ Infield Drag** combines the grooming capabilities of conventional hand-pulled mats with the field conditioning capabilities of tractor-pulled units costing thousands of dollars more. This reliable infield drag will groom your soil, remove light debris, and produce a smooth infield surface that is ready for play.

- Innovative 2-piece design offers precision grooming and light debris removal (not rocks).
- Reversible planner blade has smooth and serrated edges.
- Rails can securely hold cement blocks for added weight.
- Proudly Made in the USA and Free Shipping is available.
