

# Safe2Vent™ Filter Cartridge

10004702 - Single

10004703 - 2Pack

## Benefits

### Regulatory Compliant

The Safe2Vent Filter is compliant in all 50 states and conforms to OSHA, EPA, and California regulations.

### Viz-a-Ball Safety Indicator

Exclusive bouncing Viz-a-Ball tells operator when the can is completely depressurized and safe to remove.

### Environment Friendly

Safe2Vent's cellulose housing is 96% biodegradable, may be recycled more easily, and decomposes naturally.

### High Flow Rate

Safe2Vent filters have the highest flow rate available which minimizes the potential for over pressurization of the drum during operation.

## Overview

The **Safe2Vent Filter Cartridge** is an extremely popular drum vent filter that works with Newstripe's AeroVent Aerosol Can Disposal Systems and many other aerosol can disposal systems on the market. Its revolutionary design includes the Viz-a-Ball indicator and check value which keeps the operator safe by indicating when the system is completely depressurized and safe to open.

- Lower priced and lasts longer than other competitive filters.
- Activated carbon filter absorbs more VOCs and harmful vapors.
- Integral coalescing element traps liquids before they reach the carbon media to prevent clogging and extend filter life.
- Fully replaceable by removing filter cartridge from the reusable top and base.

## Product Specifications

<b>Application</b>	Aerosol Can Disposal
<b>Compliance</b>	Compliant in all 50 states and conforms to OSHA, EPA, and CA regulations
<b>Composition</b>	Cellulose housing & activated carbon media
<b>Filter Life</b>	600 cans processed or 90 days
<b>Origin</b>	Proudly Made in the USA
<b>Ship Dimensions</b>	Single: 12" L x 4" W x 4" H 2Pack: 9" L x 8" W x 4" H
<b>Ship Weight</b>	Single: 2 lbs 2Pack: 3 lbs

# Safe2Vent™ Filter Cartridge

10004702 (Single) & 10004703 (2Pack)

## Product Features

<p><b>Universal Design</b></p>		<p>The Safe2Vent drum vent filter is compatible with all manual, single can aerosol can disposal systems, including Newstripe’s popular AeroVent systems. The reusable base is made to fit the 3/4” opening on any steel drum. Our dual filter assembly is designed for processing high volumes or processing multiple cans at a time.</p>
<p><b>Viz-a-Ball Indicator</b></p>		<p>The revolutionary design of the Viz-a-Ball Safety Indicator and Check Valve serve two essential functions. First, they keep the operator safe by indicating when the system is depressurized and safe to open. Second, the ball check valve complies with OSHA, EPA, and CA regulations requiring the drum to be closed when idle to prevent vapors from escaping.</p>
<p><b>Environment Friendly</b></p>		<p>The Safe2Vent Filter’s cellulose construction is 96% biodegradable, may be recycled more easily, and decomposes naturally. Other drum vent filters that are plastic encased may require more extensive disposal processes.</p>
<p><b>50-State Complaint</b></p>		<p>Unlike other drum vent filters, Safe2Vent Filters are compliant in all 50 states and confirm to OSHA, EPA, and California SB1158 regulations.</p>
