

4400 Airless™ Line Striping Machine with Honda Engine

10005123

Benefits

Brighter Lines

The fully adjustable pump allows you to apply the perfect amount of pressure to produce high-quality lines without wasting paint.

Easy to Use

The airless pump pulls paint directly from any standard 5-gallon pail. Its universal lid snaps on to prevent spills. Handle mounted spray controls and cushioned grips relieve operator fatigue when striping long lines on paved areas or athletic fields.

Hassle-Free Cleanup

Color changes and clean up can be done in less than 5 minutes. Simply remove the pail with unused striping paint, place a half-filled pail of water or solvent (depending on the paint) on the machine, and flush the system.

Product Features

<p>Brighter Lines</p>		<p>The fully adjustable (0-3000 psi) airless pump lets you control the perfect pressure for all paint, thinned or non-thinned. The result is a higher quality line without wasting paint. Plus, the hydraulic driven, non-pulsating pump gives you the best line edges possible. Eliminates ragged and scalloped edges common with a pulsating pump.</p>
<p>Versatile</p>		<p>A quick release clamp allows you to remove the spray gun to paint stencils, curbs, and hard to reach areas with the 25' extension hose. An optional HashMark Master (sold separately) attaches to the machine to create perfect hash marks on athletic fields.</p>
<p>Smooth & Economical</p>		<p>The upgraded Honda GX120 engine features an OHV design for fuel economy and smooth operation. In addition, four 10" pneumatic tires make for easy rolling across many different surfaces.</p>
<p>Easy Clean Up</p>		<p>The optional 1-gallon cleaning tank (sold separately) lets you clean your spray gun and hoses without leaving your job site or field. It quickly and easily attaches to the right side of the machine.</p>
